

THE MEMPHIS APPEAL.

ESTABLISHED 1840.

MEMPHIS, TENN., THURSDAY, OCTOBER 7, 1886.

VOL. XLVI--NO. 234

We appeal to the Taxing District Council, which meets today, to make some provision for having our streets cleaned. They are filthy beyond expression, and the sidewalks are an abomination, especially to women. The cost of two or three street sweeping machines is not very great, but beyond the reach of the District treasury. Under proper management they could be used every night to sweep the principal business streets at least and greatly add to the comfort of pedestrians and to the relief of store keepers, who have their stocks more or less injured by clouds of dust, which cannot be entirely escaped by sprinkling. Above all things it would tend to relieve the people from the doses of powdered horse manure tinctured with uric acid, which find their way to almost every breakfast and dinner table.

"Our Bos," before he left the Peabody Hotel yesterday for Ripley, received the congratulations of the leading Democrats of the city, who were very much taken with him, indeed, completely captured. He has made an indelible impression here as he has wherever he has spoken, and the opinion was freely ventured that he is today the strongest man for the soon-to-be vacant United States Senatorship. It is true of politicians, as of other persons, that, as Burns said, "The best laid plans of mice and men oft go aglee." Bob was nominated for Governor in order to get him out of the way as a candidate for the Senate, but his close and popular canvass has forced him upon the attention of the people as the ablest and most available of all our Democratic leaders for that place. He has not himself said a word looking to that end, but the people have quietly determined to make him their candidate. He is a young and progressive Democrat, and is not a too, too strict constructionist.

In another part of this issue of the APPEAL we print the letter of President Jones, of the Memphis Gaslight Company, to President Hadden of the Taxing District. In view of the urgency and earnestness with which the gas company entered into the contract thus so summarily abrogated by the stockholders, there is room for astonishment on the part of our citizens. Mr. Jones is too careful a business man to assume an authority he did not have, and he is too proud a man to take upon himself an obligation that is not justified by the powers vested in him. We are, therefore, constrained to believe that the stockholders of the Memphis Gaslight Company are playing a game of fast and loose with the people of Memphis which ought to be put a stop to at once by the Taxing District contracting and paying for the gas it uses and leaving the field of light open to the freest competition. The District government has no legal right to enter into the contract with the gas company and make itself a part to a monopoly, and now that it is abrogated by the stockholders the APPEAL hopes there will not be any attempt to revive it in any shape. The city is able to pay for its gas and it ought to pay.

The missionaries sent out to the heathen by the American Board of Missions find themselves in "a fix" when the benighted to whom they preach ask them what has become of their ancestors who did not so much as know Christ, and they have to answer that they are all burning up in hell. The heathen, like other people, don't like hell, and they cannot be brought to believe in a religion that teaches what to them is more barbarous than the habit once prevalent among themselves of roasting and eating missionaries, especially fat ones. So serious a question of faith, retarding as it does the increase of members in the church, is to be taken up in discussion by the Congregational Union at Des Moines, Iowa, with a view to help the missionaries in the dilemma. To put it plainly, hell will have to be abolished or the heathen will continue to live and die in their nakedness of soul as well as body. They won't have hell.

Through late in the day we reproduce from the Mississippi Valley Medical Monthly, of September, an editorial article upon the condition of the City Hospital, that unless our Taxing District authorities hides are thicker than that of the rhinoceros, must go far to effecting a much needed reform. Communities are largely judged nowadays by the condition of their eleemosynary institutions, by their provision for the helpless poor, for the deaf and dumb, the blind and for the sick. For these unfortunates Shelby county has done much, but not all that she should. Yet she is far ahead of the city, which has always looked upon the hospital as a burden to be begrudgingly borne. What our medical contemporary says is, we are, "schemed to say, true, and we are only surprised that the Medical Faculty in a body has not long since presented the tumble-down concern to the Grand jury as the disgrace it is. And, by the way, it is a good time again to commend the Hospital to the attention of the good Christian women who are anxious for humanitarian work, and to urge upon them to co-operate with the doctors in effecting the needed reform.

THE TAYLORS AT RIPLEY

GREETED BY A LARGE AND ATTENTIVE AUDIENCE.

A Republican Convention at Nashville Captured by Prohibitionists—Georgia Election.

IPPEAL TO THE APPEAL.]
RIPLEY, TENN., October 6.—The largest assembly ever seen in Ripley made a magnificent demonstration for Bob and Alf, who arrived at noon and were escorted to the courtyard, where the speaking occurred. James Brown, of Haywood, introduced Alf, who made a characteristic speech, pleasing his partisans as usual.
Bob was introduced by W. E. Lyrar, of Ripley, and made one of his able efforts, satisfying the Democrats fully and delighting the whole audience, and winning the day. Cleveland's majority was less than 200, but they say Bob's majority will be over 400. On the platform were J. J. Oaten, Dr. A. H. Dunaway and John Conner, Mexican veterans and lifelong Democrats.
Rejoinders and flowers closed the performance as usual, and the Democracy is jubilantly enthusiastic.

A Republican Prohibition Convention

IPPEAL TO THE APPEAL.]
NASHVILLE, TENN., October 6.—The Republican County Convention today was well attended, but full of the usual disorder. John J. Littleton, who is a pronounced Prohibitionist, presided. Whiskey men had secured a number of proxies from country districts, and Littleton's influence excluded all proxies. The Committee on Resolutions reported brief resolutions endorsing the National and State platforms, the report being signed by seven of nine members. Two of the committee reported a strong submission resolution. The majority report was adopted. Gen. George May was nominated joint Senator, James Trimble Senator, and Ex-Marshal G. N. Tillman, H. A. Hassack, George Fletcher, W. F. Harrington and D. R. W. A. Hadley (colored) for Representatives. Harrington is a labor reformer and Senator, and was becoming a popular opponent of Slavery, the whiskey men's Democratic nominee. It is strongly talked that Maury, who is a friend of the whiskey men, was nominated to beat Trimble, who is a friend of Slavery. Harrington is a labor reformer and Senator, and was becoming a popular opponent of Slavery, the whiskey men's Democratic nominee. It is strongly talked that Maury, who is a friend of the whiskey men, was nominated to beat Trimble, who is a friend of Slavery.

A Democratic Candidate for the Blair Bill.
Nashville Banner: Col. J. J. Turner, of Gallatin, who has announced himself a candidate for Congress in the Fourth District, made a speech in Lebanon yesterday, in which he took a strong and positive position in advocacy of the Blair educational bill. Aside from any considerations of the merits of the educational question, it is refreshing to find a prominent Democrat who has the boldness and the courage of his convictions to take a stand in favor of a measure which is opposed in a chorus by the politicians who have become conspicuous by their candidacy for office, and who have so rapidly and unhesitatingly fallen into the rut cut out by Senator Harris. The machine organs and candidate organs have raised a great hullabaloo about the "unconstitutionality" of the Blair bill, and are now vociferously denouncing it as a "Republican trick" and a dire and dark design to wipe out the States and change our form of government, and all that sort of thing. Of course the machine will now support Col. Turner's Democracy, notwithstanding the fact that nineteen of the ablest and most approved Democratic Senators voted for the Blair bill and only six voted against it. If we are to accept the arguments presented in Tennessee and elsewhere, the Blair bill is a monstrous, un-American, and un-Christian measure, but it is a measure that is supported by the ablest and most approved Democratic Senators, and it is a measure that is supported by the ablest and most approved Democratic Senators.

THE GEORGIA STATE ELECTION.
The Democratic Candidates Elected Without Opposition.
ATLANTA, GA., October 6.—The State election passed off quietly and without incident. There was no opposition to Gen. Gordon and other State officers. The Knights of Labor candidates for the Legislature have created some excitement, but the regular Democratic nominees are elected to the House and Senate. Following is the State ticket elected: Governor, John B. Gordon; Secretary of State, Nathan C. Barwell; Comptroller, Gen. Wm. A. Weyght; Treasurer, Robert A. Hartsman; Attorney General, Clifford Anderson. A light vote was polled throughout the State.

LITTLE ROCK, ARK.

Miners and Employers Arbitrated.

IPPEAL TO THE APPEAL.]
LITTLE ROCK, ARK., October 6.—The free miners at Lloyd's and Stillwell's mines at Coal Hill struck Friday last for a raise of 10 cents per ton, since which time the miners have been idle. Yesterday the miners held a meeting at which it was agreed to accept Mr. Lloyd's proposition and they returned to work today at the price herebefore paid them. The proposition of Mr. Lloyd was to have a joint committee of employers and employees, to whom would be left all matters in controversy, the committee to make a report by November 1st, all parties agreeing to abide by the decision of the committee, with the exception of compelling the engineers and firemen to

leave the engines at Stillwell's mines. The strikers have conducted the operations quietly and orderly. It is thought the miners will gain at least a small increase on the price now paid for mining coal, and that further trouble will be permanently averted.
Trouble between the free and convict labor now employed in the different mines here has caused frequent appeals to the State for aid, and if an amicable arrangement can be reached now the trouble will be at an end until the meeting of the Legislature in January, when an effort is to be made to have the convict removed from the mines and the labor now performed by this class of unfortunates will revert to its rightful hands—free labor.

BIRMINGHAM, ALA.

The Walls of a Building Fall and Injure Workmen.

IPPEAL TO THE APPEAL.]
BIRMINGHAM, ALA., October 6.—A four story brick building is being built on Twenty-first street, next to the rear end of the Richards House, a one story brick annexed, and the wall of this was partially undermined by excavations for the foundation this afternoon. The wall fell, catching several workmen in the tumble. Wm. Campbell, foreman of the brickwork; Wm. Mahen, brick mason, and Henry Davis were half buried in the ruins and taken out stunned. Campbell had his cheek mashed in, head badly cut and several ribs broken. Mahen received several ugly cuts on the head and shoulders. Davis dodged under a prop, which saved him, but got one leg and foot pretty badly mashed. Men were kept digging in the debris for two hours on the supposition that an old negro was buried, but he finally turned up outside and unhurt.

COLUMBUS, MISS.

With New Railroads and a Cotton Factory Business is Booming.

IPPEAL TO THE APPEAL.]
COLUMBUS, MISS., October 6.—Messrs. W. F. Shunk and J. C. Rawa arrived here this morning, having come over the proposed line of the N. J. & C. R. R. from Jackson, making a reconnaissance, having left Jackson last Saturday morning. They found a more feasible route to the river than the one proposed by the N. J. & C. R. R. It passes to the south and west of Brandon, entering Leake county near Walnut Grove, near Dixon and passing a little to the south of Philadelphia, in Neshoba county, thence to Macon, from there to Columbus, from Macon to Jackson. The line is very direct, almost an air line from Macon to Columbus. Mr. Shunk is the consulting engineer, and it was under his direction that the Manhattan system of elevated railway in New York was built. He will not return over the proposed route. The survey will be made by Mr. Rawa. They found the route a most feasible one, the only heavy work being between Winstonville and Macon, and not as heavy as was expected. From Macon to Columbus the work is light, except at crossings at rivers and bayous. Columbus seems to be awaking to the fact that now is the time for her to bestir herself if she wants to keep pace with other promising towns of the State. With the Georgia Pacific completed to Birmingham, the Natchez Jackson and Columbus and the branch of the Illinois Central both running, she will be quite a railroad center.

Several articles have appeared in our local papers recently looking to the establishment of a cotton factory here, which, with our improved railroad prospects, will give Columbus quite a boom.
Dr. S. S. Franklin, one of our oldest and most prominent citizens, died yesterday morning, after an illness of several weeks. He has been a citizen of Columbus for over fifty years.

HOLLY SPRINGS, MISS.

Meeting of the North American Hotel Association.

IPPEAL TO THE APPEAL.]
HOLLY SPRINGS, MISS., October 6.—The North American Hotel Association held its annual meeting in this city today, there being present some forty members, and elected the following officers for the ensuing year: G. V. Rambau, of Tennessee, president; T. P. Coleman, of Mississippi, first vice-president; Jno. D. Adams, of Arkansas, second vice-president; Directors—J. L. Ferguson and C. H. Farrell of Tennessee, P. M. Vanzant of Texas, John W. Bell of Kentucky, and A. M. West of Mississippi; George M. Buchanan, of Mississippi, secretary; W. A. Jones, of Mississippi, treasurer. The report of the Secretary shows the registration of 500 animals during the past year, and that there is an active demand for this breed of cattle in the South. The first volume of the association's herd book will be ready for distribution by January, 1887.

JACKSON, MISS.

Death of a Prominent Lady—The Military Encampment.

IPPEAL TO THE APPEAL.]
JACKSON, MISS., October 6.—Mrs. Rosini Williams, wife of Mr. Charles Williams, the proprietor of Pearl river country, died here today after a long illness. She was an estimable lady, and had many friends.
Several speed horses have arrived for the races at the military encampment next week, and others are en route. A large crowd and a fine entertainment is anticipated.

ANOTHER SCOOPED IN.

The Planters' Oil Mills Sold to the American Cotton Oil Trust.

The Planters' Cotton Seed Oil Mill, one of the best of the local mills, yesterday passed into control of the American Cotton Seed Oil Trust, which now embraces more than two-thirds of all the mills in the country and threatens to swallow up all that remain. The purchase was made by securing all of the outstanding stock at a price which has not yet been divulged. In this case the American Cotton Seed Oil Trust departed from its usual methods, which have been to acquire a majority of the stock and freeze out the minority stockholders. The Trust now controls the very best mills in Memphis, and is master of the situation here. It remains to be seen whether planters will allow themselves to be dictated to by this enormous corporation, and sell their seed at \$5 per ton, the price which the Trust has agreed to pay.
Don't let neuralgia and rheumatism get rooted in the system, but kill them with Salvation Oil.

The Situation at Charleston Improving.

CHARLESTON, S. C., October 6.—No quiet. The city is full of refugees and workmen are busy as beavers. The situation is improving steadily.

FROM ACROSS THE OCEAN

THE EUROPEAN PRESS CONSIDERS THAT CHURCHILL'S

Visit to Berlin is Connected With the Bulgarian Question—Favor an Alliance.

LONDON, October 6.—The European press considers that Lord Randolph Churchill's visit to Berlin is connected with the Bulgarian question. The Daily News and the Pall Mall Gazette are full of the sudden adoption by Lord Randolph Churchill of the complete Chamberlain programme. They publish in parallel columns passages from his speech at Dartford and former speeches, evidences of his inconsistency. The Gazette dwells upon the complete effacement of Lord Salisbury, and says that Gladstone and Churchill are undoubtedly the two most interesting figures in English politics. It adds that Churchill bids fair to efface his colleague as almost completely as Gladstone did his. A story is current that in reply to the questions of an old Conservative, "How far are you going? What is the unity of the Unionists?" Lord Churchill said: "The unity of the Unionists? Cert moi."

The Movement in Favor of Russia.

St. PETERSBURG, October 6.—The newspapers here publish a telegram from Giurgio, Roumania, dated last Sunday, which states that the movement in favor of Russia, which started in the Bulgarian army under the leadership of the gariboldi at Shumla, is now in full progress. The dispatch says the movement has spread rapidly and that the adhesion of the gariboldi at Rostchuk, Widdin, Plewna and Silivo appears to be unquestionable. The telegram goes on to say that on Sunday last the Russian minister telegraphed to the Bulgarian Minister at St. Petersburg that they were convinced that the present state of political anarchy was injuring the rights and interests of the people and the country; that they desired the release of all the prisoners of the coup d'etat as demanded by Russia; and that they wished Gen. Kanlar's note containing the Czar's demands to be considered by the Bulgarian Government, "in order to avoid a breach between two sister nations."

The Alleged Anti-Russian Alliance.

St. PETERSBURG, October 6.—The St. Petersburg military organ, referring to the reports current in Hungary concerning the alleged existence of a secret anti-Russian alliance between Serbia and Bulgaria, advises Russia to avoid harsh measures toward Bulgaria. "It is better," says the St. Petersburg organ, "to abandon Bulgaria to its fate than to drive it into the arms of Russia's foes. The time will come when the Bulgarians will understand what the vital interest of Russia is in the Balkans, and then the Bulgarians will turn of their own accord to Russia."

Favor an Alliance.

BRUCHARSK, October 6.—King Charles has presided over a series of councils of war in this city during the last few days. Several of the Roumanian generals favor an alliance between Roumania and Russia.

Cable Finishes.

LONDON, October 6.—The Russian Government will introduce a tobacco monopoly throughout the empire in 1887.

BRUCHSK, October 6.—The miners have again gone out on a strike at Chalerol. They attempted to kill their manager. He escaped death, but was wounded.

CHATTANOOGA, TENN.

Fashionable Wedding—Street Improvements—New Church.

IPPEAL TO THE APPEAL.]
CHATTANOOGA, TENN., October 6.—A fashionable wedding occurred here today, being the marriage of Mr. N. Flag Hazelhurst, president of the Lookout Rolling Mill Company, to Miss Mary Griffin, the accomplished daughter of Jno. C. Griffin, a wealthy and prominent citizen of this city.

As the first step toward permanently improving the streets of Chattanooga, a contract was made with the Atlanta Granite Company for laying sections of Broad and Eighth streets with granite blocks, the work to be commenced at once and finished within thirty days. This will mark a new era in street paving in this city. A contract was let today for the erection in this city of a 150,000 church for St. John's Episcopal Church, the masonry for which is now ready and the work on the superstructure will commence at once.

KITSON'S RACING STUB SOLD

At New York—Enos, a Yearling, Brings \$3100.

New York, October 6.—The sale of the Enderbush racing stud and yearlings was carried on at Jerome Park today, as Commodore N. W. Kitson, the owner, had determined on disposing of all his splendid equine establishment. The attendance was very meagre but moneyed and the prices in the main were good. Toward the close, however, there was a decided falling off in the bidding, and a number of animals were withdrawn. Fred Gebhardt captured the phenomenal yearling Enos for \$3100. Among other good prices were: Brown Duke, 4 years old, to D. D. Dixon for \$1700; Raveller, 2 years old, to E. Heffner for \$2000; Rustler, 2 years old, to Davis Gideon for \$2300; Austriana, 2 years old, to R. Tucker for \$1600; Italia, 2 years old, to O. Thom for \$1200; Enfaula, 2 years old, to E. Heffner for \$1050; Rural, yearling, to John Mackey for \$1050; Austriana, to A. J. Casar for \$1300. Thirty-eight head were disposed of for an aggregate of \$30,195, or an average of nearly \$795.

Lundborg's perfume, Edenia Lundborg's perfume, Alina Violet. Lundborg's perfume, Lily of the Valley. Lundborg's perfume, Marchal Nile Rose.

To Return to the Ten Hour Plan.

CHICAGO, ILL., October 6.—At a meeting of Chicago packers it was unanimously agreed to, by representatives of every house at the yards, and by representatives of the Union Stockyards Company, to change to the ten hour system on Monday, October 11th.
Hot drinks should be avoided in cold weather. They have a tendency to weaken the lungs and throat. Take Dr. Bull's Cough Syrup for coughs.

DIED.

BUXBAUM—At her residence, No. 119 Exchange street, Wednesday morning, October 6, 1886, BARRETT BUXBAUM, aged 74 years, mother of J. H. Williams, Jacob and Barney Buxbaum.
Funeral from her late residence this (THURSDAY) morning at 9 o'clock. Friends are invited.

KREMER'S

FIRST LINE.
